EDUCATION

University of Nebraska-Lincoln

Aug. 2023 – May 2027

B.S. Computer Science (GPA: 3.923) | Minor in Music

Lincoln, NE

- **Coursework:** Operating Systems, Software Engineering, Software Security in Practice, Unix Programming, Computing Systems Engineering, Data Structures & Algorithms, Design & Analysis of Algorithms

EXPERIENCE

Information Technology Intern - Applications Development

Feb. 2026 – Present

Metropolitan Utilities District

Omaha, NE

- Collaborated with software engineers on internal application development initiatives supporting utility operations.

Undergraduate Learning Assistant

Jan. 2026 – Present

University of Nebraska-Lincoln

Lincoln, NE

- Supported students learning basic programming and Python during labs and office hours.

Undergraduate Teaching Assistant

Aug. 2025 – Dec. 2025

University of Nebraska-Lincoln

Lincoln, NE

- Supported students with data structures and algorithms during office hours.
- Assisted with course logistics (content organization, grading support).

Additional Experience

- FedEx Ground — Package Handler (Aug. 2023 – Present) | Cargill Meat Solutions — Offal Palletizer (Jun. 2025 – Aug. 2025), Boxer Pack Off (Jul. 2023 – Aug. 2023) | Love's Travel Stop — Cashier (Jul. 2022 – Jun. 2023) | Arby's — Crew Team Member (Nov. 2021 – Jun. 2022)

PROJECTS

Budget Planner | React, ASP.NET Core, PostgreSQL

- Built and deployed a full-stack budget planning web application with expense tracking and category-based budget limits.
- Implemented JWT-based authentication with email verification and password reset functionality.
- Deployed across Vercel (frontend), Render (backend), and Neon (database).
- Live Site: oli-budget-planner.vercel.app
- GitHub: github.com/OL1V3S/budget_planner

Church Website | React, Vite

- Built a responsive multi-page website using React and Vite.
- Implemented routing and ensured cross-device compatibility.
- Live Site: templobautista.net
- GitHub: github.com/OL1V3S/church_site

Online Grocery Store App | C#, ASP.NET Core

- Developed a full-stack e-commerce application in a team using C#, ASP.NET Core, and Entity Framework.
- Implemented cart, product, and user logic; tested backend with xUnit following SOLID principles.
- GitHub: github.com/OL1V3S/361_Project

Sales Management System for YRLess | Java, SQL

- Built a Java application with SQL integration to manage telecom sales.
- Designed database schema, implemented leasing logic, and parsed JSON/XML data.
- GitHub: github.com/OL1V3S/156_project

TECHNICAL SKILLS

Languages: Java, Python, C, C#, SQL, JavaScript, HTML/CSS

Frameworks: React, ASP.NET Core, Entity Framework, xUnit

Developer Tools: Git, Docker, VS Code, GitHub, Azure
